PARIKSHITHA HEGDE

parikshithhegde04@gmail.com | (+91) 9845839611 | Siddapura, India 581340

Summary

Offering 3+ years of progressive experience in owning web-based projects from concept and design through testing, implementation and client updates. Diligent about producing exceptionally clean, strong and secure code. Successful at achieving browser, device and operating system compatibility objectives while satisfying client desires and producing robust, sophisticated designs.

Skills

- Full stack development experience spanning 3 years.
- Proficient in NodeJS and Java for backend development.
- Solid understanding of Object Oriented Programming.
- Front-end technologies: JavaScript, HTML, CSS.
- Expertise in MongoDB for efficient data storage and retrieval.
- Familiarity with MySQL for database management.
- Skilled in implementing queuing and caching mechanisms.
- Strong problem-solving and communication skills.
- Adaptability to new technologies and tools.
- Experience with Docker and AWS.
- Strong MongoDB including aggregation knowladge
- Software Best Practices

Experience

Coducer technology private limited | Bengaluru
Full-stack Developer
04/2022 - Current

1. Developed a highly efficient linear tool that streamlined team workflows, enabling optimal collaboration and timely project delivery
2. Led the backend development (NestJS) for the Impactree project, constructing a robust architecture from scratch for scalability, performance, and maintainability
3. Implemented an impactful analytics dashboard for the Impactree project, facilitating data-driven decisions
4. Developed a RabbitMQ microservice for large data import, optimizing system performance and reducing resource load
5. Devised a script for seamless Excel data import, automating manual processes and saving significant human effort
6. Designed and implemented the IHX-Contract management life cycle, revolutionizing contract management efficiency as the Lead Backend Developer
7. Spearheaded Git actions implementation for IHX, resulting in substantial cost savings and process optimization
8. Integrated online stamping and e-signing capabilities into the IHX project, enhancing document authenticity and convenience
9. Implemented highly efficient linear tools that streamlined team workflows for optimal collaboration.

Tata Consultancy services | Bengaluru

10. Selected for the prestigious TCS Ignite Training program, a highly

Programmer
09/2020 - 03/2022

competitive program that offers specialized training in DevOps, AI/ML, and web development

11. Gained expertise in web development, including front-end and back-end technologies, creating dynamic and user-friendly web applications

12. Demonstrated expertise in providing technical support for a renowned financial institution, Morgan Stanley.

Education and Training

JSS SMI UG & PG Studies, Dharwad

Bachelor of Computer Application
08/2023
